

MCM TS-SERIES Tree Spade Attachment

MCM's rugged Tree Spade Attachments turn your MCM Equipment into a tree removal, and relocating machine, drastically reducing production costs. **Specifically designed & built for the South African market.**

- Dig, transplant, and package trees without leaving the comfort of the operator's seat
- Effectively work between closely planted trees.
- Works effectively in a variety of soil conditions.
- Ideal for nurseries, landscapers, golf courses, construction, farming, rental yards, farmers, parks and recreation departments, and municipalities.

Model	TS220	TS230
Overall Length (mm)	1423	1815
Overall Width (mm)	1400	1780
Overall High (mm)	1383	1828
Operating Pressure (MPa)	12-21	12-21
Fit Tree Diameter (mm)	0-50	0-100
Ball Diameters Available (mm)	0-600	0-900
Weight(Kg)	450	650

MCM Tree Spades can be mounted on a variety of MCM Equipment, from walk-behind mini skid-steers, full-size skid-steers and track loaders, up to large wheel loaders.
